

Application Form for a Sercos Vendor Code

Herewith we apply for a vendor code for Sercos devices.

Remarks:

1. As defined in the Sercos specifications, a vendor code and a device ID is required for all devices using Sercos communication. The vendor code and the device ID are used for identification and configuration purposes.
2. The vendor code is assigned by Sercos International for a vendor and a defined production site. Companies with several production sites need to apply for several vendor-codes. The value range is 0x0001 to 0xFFFF.
3. The device ID is a vendor-specific identification number that is assigned to the produced devices. The vendor is responsible for administering and assigning these device IDs.

Desired vendor code

- Decimal _____
- Hexadecimal 0x_____

Already assigned vendor codes are listed on <http://www.sercos.org/certification/vendor-ids/>

Vendor Name:	
Production Site:	Contact Person:
Street:	Company:
Postcode/City:	Department:
